CSA International, Inc. Announces Launch of New Business Line

CSA International, Inc. (CSA), a leader in Marine Environmental Sciences and Services, is pleased to announce the launch of its new Marine Services Business Line, which will be managed by Mr. Lynwood Powell. This Marine Services Business Line will continue to support CSA's Science Division in addition conducting independent marine services field efforts. Since 1970, CSA has provided a full range of environmental sampling capabilities and equipment for the collection of marine sediments, water, and water column data and has built a solid reputation for high-quality field efforts and unbiased data collection. CSA technicians routinely utilize a variety of equipment and instruments to plan, implement, and conduct technical field operations, such as underwater video and still photography (diver-held, towed video and still camera systems; ROV operations), oceanographic data collection and monitoring (wave, tide, and current recording equipment; water quality instrumentation and sensors), geophysical surveys (side-scan sonar and subbottom profiling), and geotechnical sampling (vibracoring and sediment sampling).

Mr. Powell began his career with CSA as a marine technician in 1983. He will leave his current position as the director of CSA's Programs Department in order to focus his energies on managing and expanding the Marine Services Business Line. His managerial experience combined with his technical knowledge provides insight to this market..

CSA International, Inc. specializes in consulting services for Federal, State, and private industry clients in multidisciplinary projects, integrating science and technology to evaluate environmental activities throughout the world. CSA offers a wide variety of services related to environmental management and community planning to support clients working in marine, estuarine, wetland, freshwater, and terrestrial habitats throughout the United States and overseas.
