

**EMPLOYMENT OPPORTUNITY  
Hazard Mitigation Planner**

**CSA International, Inc.  
Stuart, Florida**

CSA, a small environmental services and planning consulting firm, is seeking an individual who has a passionate interest in hazard mitigation planning. The individual will have the opportunity to work on a number of diverse projects for mostly public sector clients. Projects may include post-disaster redevelopment planning, all-hazards planning, wildfire mitigation, and emergency management planning. Work will include research, in-depth analysis, writing, and public facilitation on cutting-edge topics. The successful candidate will be highly motivated, creative, and able to work as a team member and independently.

**Minimum Requirements**

- Masters Degree in urban and regional planning, emergency management, or related field;
- Interest and some knowledge of natural hazards and/or disaster recovery planning;
- Excellent written and verbal communication skills; and
- Efficiency with word processing and spreadsheets.

**The ideal candidate will be able to demonstrate the following additional qualities:**

- A thorough knowledge of the principles and practices of hazard and recovery planning as well as community planning;
- Show initiative and creativity in approaching new work;
- Ability to complete work on-time and in-budget;
- Ability to critically assess information/data and prepare succinct analysis; and
- Familiarity with ArcGIS software and developing spatial analysis methodologies.

**To apply**
